Phase 0 — Audit card

Recite from memory, score honestly, change nothing yet.

Phase 0 — audit **Window** 14–27 Nov 2026 **Mushaf** Madani, page numbers as printed

Generated 2026-11-13 23:31Z

> **No new material until this card is finished.** You are not testing whether you can memorise — you are finding out which of your 22 surahs is already solid and which is a wall of sand. Most failed hifz attempts are built on sand. Two weeks now saves two years later.

HOW TO SCORE EACH SURAH

1. Open the mushaf. Read the surah once, aloud, looking. This is not the test.
2. Cover it. Recite from memory, **out loud and slow**. Do not rush to hide a stumble.
3. **Record that pass.** One take. It is your baseline — in six months you will hear the difference, and hearing it is worth more than any progress chart. Save as `2026-11-XX_SSS-001-END.mp3` in `/Quran/Hifz/Recordings/`.
4. Score honestly: **0** cannot start · **1** only with prompts · **2** one or two stumbles · **3** fluent.
5. Write any surah scoring 0–1 on the rebuild list at the bottom — **do not fix it today.** We rebuild those deliberately, not in a panic.
